

August 7, 2004

Dear Julia,

Thank you for the work you are doing in the equestrian advocacy space, specifically reaching out to all the transport committees in NZ Aotearoa. As an equestrian advocacy group ourselves we are fully supportive of your initiative to make our roads a safer place for all vulnerable road users, but specifically horse riders and drivers.

It is one of our organisation's stated aims to engage with both central and local government to effect change in the status and safety of equestrian users, so, as this fits hand in glove with that goal we fully endorse your campaign and will provide all the resources and support our national membership can offer.

Ngā Mihi,

Arthur Yeo
